## Wireline/Slickline Services (FEET OF WIRELINE AND STILL MEASURING)

We know wireline and what it takes to earn trust in the industry. Our reputation rides on helping our customers achieve the maximum efficiencies in production through exceptional services and wellsite execution.

Our customers have come to count on our experience, technology and reliability. When you want better than good enough, you can depend on GreatWall.

## We run it right...

At **GreatWall**, wireline service is our business—not just a small segment of what we do. Our exemplary track record in the field enables us to provide exceptional service to each customer. With every job, we strive to operate more efficiently and deliver better results each time.

In addition to advanced equipment, we provide proficient, skilled people onsite to execute the job. Our high volume of diverse wireline work ensures that our crews are experienced and equipped to respond appropriately to a range of unexpected well conditions.

Our employees learn quickly in our accelerated training program, which integrates classroom knowledge with hands-on experience and **GreatWall's** involved management team provides oversight and direction for every job in the field and works to enhance service quality with every run.

## We've got the tools...

We focus on helping every **GreatWall** customer get the job done more efficiently and effectively. We rely on an array of innovative products, techniques and processes to provide the best quality at the right price. Our arsenal of services includes:

### **Tubing Conveyed Perforating Services (TCP):**

**GreatWall** a TCP company, so we know the technology and understand how to meet customer needs. Can efficiently set plug and shoot guns on same run

## THE WAY COMPLETIONS SHOULD BE

GREATWALL TAKES A DIFFERENT APPROACH TO COMPLETIONS –

Nothing is predictable in the oilfield. Maximizing production and minimizing costs is a balancing act. In challenging, unconventional environments, it's important that you have a partner who understands how to get the job done efficiently and effectively.

At **GreatWall Technology**, we don't offer off-the-shelf solutions. We customize completion solutions for every project—and provide the tools and the knowledge to deliver the lowest costs and highest efficiencies. With **GreatWall**, you have access to a full array of completion solutions, all designed, tested and proven.

Back by **GreatWall's** partnership with Halliburton, they are tested known Services Company in the Industry worldwide.

## Our proof of performance...

**GreatWall** and partners have a proven track record with over 2,000 successful stimulation zones deployed since 2007. In addition, we have a number of proprietary products that offer unmatched performance. And with an industry-leading plug-n-perf team, we are ready to deploy when you need us the most.

## GreatWall brings you a comprehensive well intervention portfolio.

The oilfield is unpredictable, and the demands to achieve objectives while operating responsibly are high. As a recognized leader in well intervention, **GreatWall** provides consistent service, innovative solutions and proven experience to help you succeed.

Our conventional testing services include:
